

This could be you

Change a child's future

There are vulnerable children and young people in West Cheshire that are in need of a safe and stable home.

We urgently need more foster carers to help look after the following groups of children:

- Teenagers
- Sibling groups
- Children with additional needs
- Children over five years old

Call: **01244 972222**

Can I foster?

Our foster carers come from a variety of backgrounds; if you have a spare room and can offer a stable and secure home to a child or young person, then you can foster.

There are no qualifications needed, we just need you to be committed to the role and willing to learn.

How will I be supported?

All our foster carers receive ongoing training, access to 24 hour support and a competitive financial package. Our fostering team will guide you through every step of the application process and will be there to support you when you have a child placed in your care.

As your local Council you will be part of a wider team and will have the support of other foster carers in the West Cheshire area who can offer advice and guidance to you.

If you think you could help to change a child's future by becoming a foster carer please visit: www.cheshirewestandchester.gov.uk/fostering and complete the online enquiry form or call: **01244 972222**.
